Our school is considering the following approach(es) to support the promotion for the seasonal influenza vaccination in 2016/17 for our school children:-

(Please put a ✓ in the appropriate box. You can tick more than 1 box.)

- To distribute information related to seasonal influenza vaccination (e.g. letters to parents and information leaflets) to parents to encourage them to take their children to receive vaccination from private doctors (DH would provide the information to schools in due course)
- To arrange with private doctors enrolled to Vaccination Subsidy Scheme (VSS) to provide vaccination at our school
- To encourage parents to take their children to receive subsidised vaccination from doctors enrolled to VSS at their clinics
